ABOUT THE DEPARTMENT

The Department was started in 2000, and it has grown excellently in academic and research work. The department is equipped with the state of art computing and Internet facilities (100 Mbps) and supported by experienced and well-qualified faculty members. More than 70% of the students have been recruited by reputed IT organizations through Campus Placement.

SCOPE AND OBJECTIVES

The seminar on "Research Issues in Computer and Communication Networks" will act as a forum for researchers and the practitioners interested in the advances and application of computer / communication / Heterogenous networks. It is an opportunity to observe the latest researches, results and ideas in this area.

The primary objective of the seminar is to promote scientific information exchange amongst experts, researchers, developers, engineers, students, and practitioners working in the country. The scientific program of the seminar will consist of presentations by leading experts in the field of wired / wireless / adhoc / mobile telecommunication networks. The experts will address the recent developments and trends in these fields. The participants will get enough opportunity to enhance their knowledge regarding the recent state-of-the-art in these fields through interaction with experts. This will stimulate the research potential of the candidates who wish to pursue Doctoral degree in the related fields.

PROGRAM VENUE
